Gearbox and motor combinations with Demag coupling shaft end (Z-type cylindrical-rotor motors or KB conical- rotor brake motors) using intermediate flange and roller spider coupling. Since there is no oil present in the coupling housing, gearboxes can be fitted independently of the motor and the motors can be easily disassembled. 7

BRAZILFILMFESTIVAL.INFO Ebook and Manual Reference

The required airgap adjustment ensures that the brake will close properly and stop a load in the designed range of deceleration and in the permissible distance. It will also allow the brake to release properly and not drag when the motor is running. Checking brake wear in Demag ZB motors is part of your regular maintenance.
