Taxation - Principles of taxation | Britannica

The OECD Working Paper Tax Design for Inclusive Economic Growthexamines the role of tax systems in promoting "inclusive Growth". Inclusive growth refers to economic growth where the benefits of growth are more evenly shared between individuals across the income and wealth distribution. Against a backdrop of historically high income and wealth inequality, the paper highlights the key role that tax policy design can play in not only supporting growth but also in addressing ...

On the Design and Reform of Capital Gains Taxation

Design and Reform of Taxation Policy focuses attention on some of these critical issues. The book is divided into two sections: the first deals mainly with theoretical issues, while the second tackles the problem of implementation of tax reforms with the main emphasis on policy evaluation.

These papers examine institutions and focus on the administration of indirect taxation.This book also includes papers on politics and incentives in fiscal federalism, organization design and tax compliance, and reputation and opportunism in taxation. A frequent theme in these papers is the inextricable link between tax policy and tax ...

Introduction to Tax Policy Design and Development - GSDRC

The proposed design of international tax law reforms by the OECD is intended to assist countries in implementing a cohesive global approach, but each country uses their tax system to influence taxpayer behaviour to achieve their own social and economic goals. This is a grand challenge facing the implementation of the BEPS proposals.

Design and Reform of Taxation Policy som e-bog

The 18th-century economist and philosopher Adam Smith attempted to systematize the rules that should govern a rational system of taxation. In The Wealth of Nations (Book V, chapter 2) he set down four general canons: Adam Smith Adam Smith, paste medallion by James Tassie, 1787; in the Scottish National Portrait Gallery, Edinburgh.

Tax by design - Institute For Fiscal Studies - IFS

The success of tax reform clearly depends on the way in which different political groups perceive the reform and how they react to their perception. Tax reform is "an exercise in political legitimation". Those who will have to pay more must be convinced that they will get something worthwhile for their money.

Tax Design and Administration in a Post - BEPS Era: A ...

This shows how evasion can be documented, and quantified, through a case study that looks at a particular type of reform, aimed at curbing evasion: franchising, or privatizing the right to tax, which has been tried in several Tanzanian towns as a way of collecting vendor fees, for access to a public market.

Institutional Elements of Tax Design and Reform

The global tax reform package, with 15 Actions, is designed to equip countries with the tools they need to ensure profits are taxed where economic activity occurs and value is added. This volume is a comprehensive stock-take of the BEPS implementation that looks beyond a mere checklist of action or non-action to explore the experiences of 18 different jurisdictions.

OECD Taxation Working Paper Series

The analysis suggests a tax and economic growth ranking order according to which corporate taxes are the most harmful type of tax for economic growth, followed by personal income taxes and then consumption taxes, with recurrent taxes on immovable property being the least harmful tax. Growth-oriented tax reform measures include tax base broadening and a reduction in the top marginal personal income tax rates.
