Sacred Texts contains the web's largest collection of free books about religion, mythology, folklore and the esoteric in general.

### **Endomondo | Community based on free GPS tracking of sports**

Answer: You don't need a phone signal/data network connection to track your activities with our Endomondo Sports Tracker app. The app can track using only the satellite signal, so all you need to do is to turn on the GPS/Location service in the phone and make sure the Endomondo app can access the GPS (read more about GPS in our GPS guide). Through the GPS we can track your distance, duration, speed, pace, mile/kilometer splits etc. and show this data in the app.
