Other Theories of Emotion. Others have suggested that emotions exist in something of a hierarchy. Primary emotions such as love, joy, surprise, anger, and sadness can then be further broken down into secondary emotions. Love, for example, consists of secondary emotions such as affection and longing.

Plutchik suggested that there are 8 primary emotional dimensions: happiness vs. sadness, anger vs. fear, trust vs. disgust, and surprise vs. anticipation. These emotions can then be combined in a variety of ways. For example, happiness and anticipation might combine to create excitement.

**Emotions and Types of Emotional Responses**

Emotional intelligence explained. Examples of emotional intelligence. Emotional intelligence is a board topic and that's why the best way to explain it is by giving examples that can make it clear. Emotional intelligence is the ability to properly monitor and manage your emotions in an intelligent way in order not to let them take over you...
