Article Summary: "A Critique of Ethics" by AJ Ayer. Ayer, AJ. Language, Logic, and Truth. New York: Dover, 1952, 102-113. Summary. Ayer argues that ethical terms are not really propositions at all - they are 'pseudoconcepts' which do not add any factual content to sentences in which they occur, but merely express the feelings of the

The Evolution of Ethics. By: Francisco Ayala · 977 Words · 0 Comments. Ethics is a human universal. People have moral values: that is, they accept standards according to which their conduct is judged either right or wrong, good or evil. The particular norms by which moral actions are judged vary to some extent from individual to individual ...

Evolution and Ethics

Another sharp critique against evolutionary thought from Christians has been the difficulty in founding morality. Thus, Ruse's efforts to explain how Darwinian thinkers produced a new formula for ethics. It is basically that morality is founded in the evolution of pro-social behaviors in culture.
