Here is an updated version of the \$domain website which many of our East European book trade customers have been using for some time now, more or less regularly. We have just introduced certain upgrades and changes which should be interesting for you. Please remember that our website does not replace publisher websites, there would be no point in duplicating the information. Our idea is to present you with tools that might be useful in your work with individual, institutional and corporate customers. Many of the features have been introduced at specific requests from some of you. Others are still at preparatory stage and will be implemented soon.

Language, as described above, is species-specific to human beings. Other members of the animal kingdom have the ability to communicate, through vocal noises or by other means, but the most important single feature characterizing human language (that is, every individual language), against every known mode of animal communication, is its infinite productivity and creativity.

Read Book Face Language By Robert L Whiteside

Lincoln's hands are making sign language symbols of his initials "A" and "L." Sculptor Daniel Chester French used molds of Lincoln's hands cast in 1860 to guide his work. These molds were created with Lincoln's hands in a loose fist. Instead of keeping both hands closed, French chose to relax Lincoln's right hand.
