Yet this vast continent, home to half a billion people, the world's largest reserves of arable land, and 8.5 percent of global oil, is busily transforming its political and economic landscape. This book argues that rather than failing the test, Latin America's efforts to build fairer and more prosperous societies make it one of the world's most vigorous laboratories for capitalist democracy.

Latin America has often been condemned to failure. Neither poor enough to evoke Africa's moral crusade, nor as explosively booming as India and China, it has largely been overlooked by the West. Yet this vast continent, home to half a billion people, the world's largest reserves of arable land, and 8.5 percent of global oil, is busily transforming its political and economic landscape.

...

That this underlying democratisation is not better understood owes much to Latin America's status as the 'forgotten continent' to which, it is assumed, anachronistic stereotypes and generalisations can safely be applied. Neglect may indeed be mainly benign but it is also risky. Most of Latin America has bet on economic openness and democracy.
