History of psychology - Wikipedia

Lesson Summary. The Gothic style of interior design is based on 19th-century interpretations of medieval architecture. Medieval Gothic churches were large and ornate, and the Victorian-era designers of the 19th-century Neo-Gothic movement found ways to incorporate these motifs into private and secular spaces.

Interiors A History Of Psychology

Comprised of histories of inauguration and subsequent institutionalisation rather than, strictly speaking, histories of ideas, the contributions to this volume take great care to trace the development of Psychology in teaching and research institutions, in various domains and modalities of application, and in the context of Psychology's involvement in the political history of South Africa.

While psychology did not emerge as a separate discipline until the late 1800s, its earliest history can be traced back to the time of the early Greeks. During the 17th-century, the French philosopher Rene Descartes introduced the idea of dualism, which asserted that the mind and body were two entities that interact to form the human experience.

History of Mausoleums. A mausoleum is a very old burial method. The term 'mausoleum' comes from a name, that of King Mausolus. He was an ancient king who ruled an ancient kingdom in Asia Minor near the Mediterranean Sea. When he died around 350 BC, his grieving queen had him buried in large temple-like structure.

The development of modern psychology also expanded the study of color, which has been used in design and marketing, architectural design, and yes, interior design successfully for decades. Even Swiss psychologist, Carl Jung, defined the four temperaments in terms of colors: sunshine yellow, earth green, cool blue, and fiery red.
