This option unit may only be used with the FREQROL-A100E and A200E series inverters and must not be used with any other series (e. g. A100, A200, Z and F series). These models have a different option connector to prevent connecting by mistake; however, if the user forces the connector, the inverter may be damaged.

In a Freqrol U100 the displayed message

E.RHN actually means ETHM. Rhis is an

indication that the inverters internal

electronic thermal relay functioned. A

current that was 150% or higher of the

set current flowed causing an inverse

time characteristic.
