### **Introduction to Design Optimization**

Notes on Optimization was published in 1971 as part of the Van Nostrand Reinhold Notes on Sys-tem Sciences, edited by George L. Turin. Our aim was to publish short, accessible treatments of graduate-level material in inexpensive books (the price of a book in the series was about five dol-lars). The effort was successful for several years.

### **LECTURE NOTES ON ENGINEERING COMPUTING**

Often engineering optimization is done implicitly. Using a combination of judgment, experience, modeling, opinions of others, etc. the engineer makes design decisions which, he or she hopes, lead to an optimal design.
